## About UP

The UP Conference is a 1-day forum for the Exploration and Production industry to learn and discuss best practices of upstream planning, and new ways to leverage technology to meet business goals.

**Join us on November 30<sup>th</sup>, 2016 –  
registration is free!**

## Conference Highlights

- Breakfast and Lunch Keynotes
- Customer presentations and success stories
- Technology and best practices presentations
- Panel discussion: “2017 Outlook – Planning for Success”
- Evening Social Event

## Speakers & Guests

- Shell Canada
- ConocoPhillips
- Birchcliff Energy
- and more!

## Technical Sessions

The UP Conference will feature a variety of presentations by E&P Operators, along with presentations from 3esi-Enersight, covering technical advances and best practices for every function of upstream planning. Here is what you can expect:

- End-to-End Planning with 3esi-Enersight
- Efficient & Accurate Corporate Roll-Ups
- Data Visualization Opportunities using Reporting Database (with esi.manage)
- In-Year Capital Management of your Asset Development Plans
- Transforming Asset Plans into Portfolio Models (...and back again)
- Excel-Based Fiscal Modeling for Economics and Financials
- “What’s New” Sessions for Every 3esi-Enersight Product

**Visit the UP Conference  
website for the complete,  
up-to-date agenda**
